

# Augmentus Meeting

Last Updated: 20 April 2022

**AUGMENTUS**  
ROBOTICS SIMPLIFIED

---

# About Augmentus

# About Augmentus

**We believe there is a simpler way to program robots.**

Our no-code and fully-integrated robotics platform enables anyone - even those with no robotic experience or programming skills - to develop, deploy and re-purpose robotic systems in minutes. We strive to help businesses recoup return on investment faster by drastically lowering the time, cost, and skill barriers in implementing robotic systems.

# Our Concerns

## Our Concerns

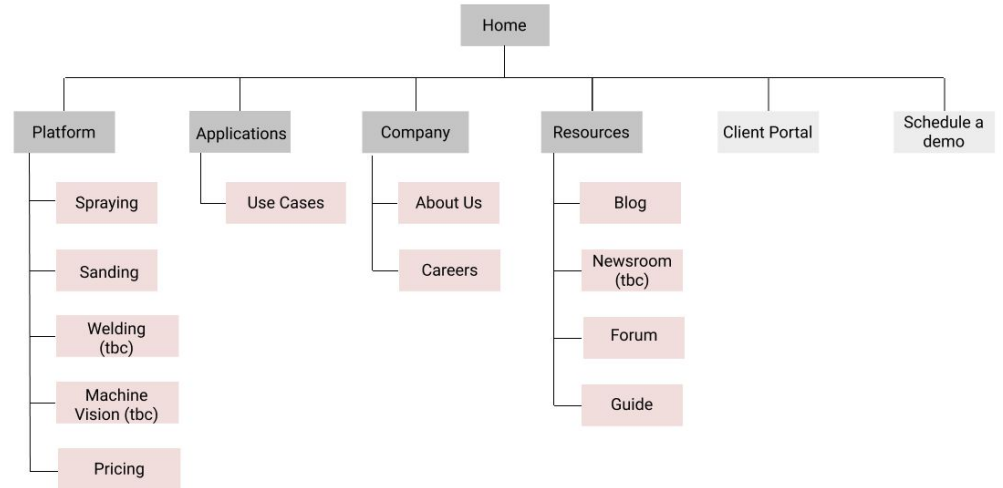

- Login page for our clients and SIs - we need a client portal page for our clients to login, upload their meshes in obj., stl. format files. They would also need to be able to view their license, projects, tutorial videos etc.
- Forum & Guide page - Listed but requires log in for our clients
- Other static pages
- Ability to Integrate to Hubspot for our forms
- Potential to include payment gateway
- Security - We got hacked twice in the past months.
- CMS: We currently use wordpress. What would work better for us?
- SEO - Do you provide services for this?

# Our Website Plans

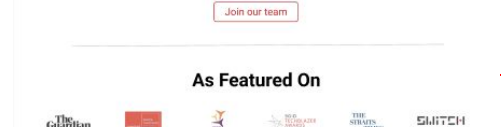

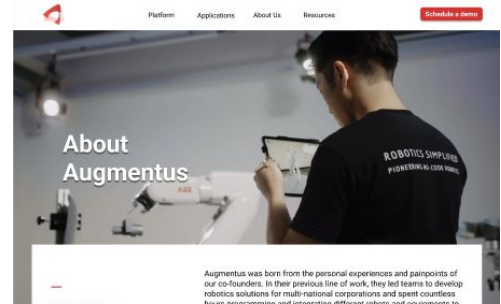

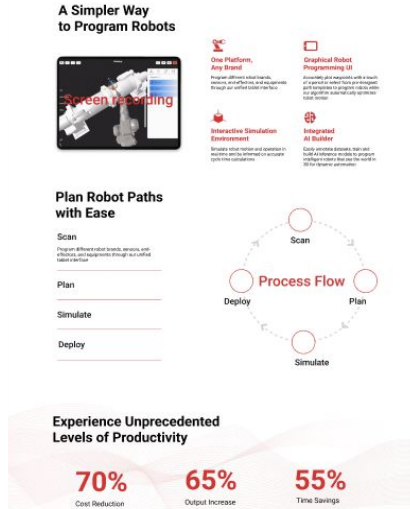

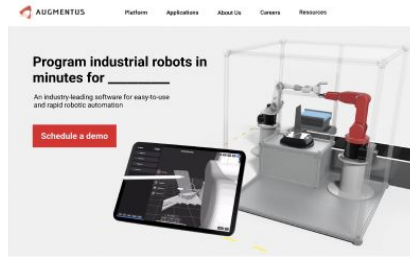

# Information Architecture

- 6 Main Pages
- 12 Sub-Pages +3(TBC)

# Web Prototypes we came up with

- Home page
- Platform - Applications
- Platform - Pricing
- About Us
- Careers
- Newsroom (TBC)
- Client Portal
- View Figma [here](#)

# Pages that requires more thought than others

- Client portal (most important)
- Forum
- Guide
- Pricing/ payment gateway (eventually)

# Client Portal

- Log in portal for our clients to **upload their meshes** (obj, stl.) and view their account
- The portal would also include a dashboard of our clients' **license, projects, tutorial videos**
- Similar to log in portals like Adobe

Welcome to Augmentus, [Name]

**The Augmentus Platform**

Program robots in minutes  
No-code. No-cad. High roi.

No-code and fully-integrated AI-robot programming that enables non-technical users to program industrial robots in minutes

# Forum

- Forum page similar to shapr3D's forum
- Our current forum page: forum.augmentus.tech

# Guide

- Guide page to be similar to shapr3D's manual
- Our current guide page: guide.augmentus.tech

The screenshot displays the Augmentus Guide website. At the top, the Augmentus logo is on the left, and navigation links for Platform, Applications, About Us, Careers, and Blog are on the right. A red 'Schedule a demo' button is also present. Below the navigation is a dark blue header with the text 'Augmentus Guide' and a search bar containing the text 'Search the guide to find answer'. The main content area features a sidebar on the left with a table of contents. The first section, '1. Introduction to Augmentus', is highlighted with a red bar and includes sub-sections: '1.1. How to use this guide', '1.2. User interface 101' (with further sub-sections: '1.2.1. Top Bar', '1.2.2. Waypoint Tools', '1.2.3. Connectivity', '1.2.4. Treeview'), '2. Getting Started', '3. Features', and '4. Advanced'. The main content area shows the 'Introduction to Augmentus' page, dated '6 months ago | Updated', with a breadcrumb '1. Introduction to Augmentus'. Below the text is a large image showing a 3D model of a mechanical part on a tablet screen, with a white pen pointing at it, illustrating the augmented reality application.

# Security

- We got hacked twice in the past months
- When we googled ourselves, a foreign language (Japanese, Arabic) appeared.
- The text also had nothing to do with our company when translated.
- This severely affects our SEO

ぬいぐるみ - [augmentus.tech](https://augmentus.tech): 売り切れ必至! 約束の ...

売り切れ必至! -約束のネバーランド リトルバーニー- ぬいぐるみ 1番くじ - [augmentus.tech](https://augmentus.tech).

You've visited this page many times. Last visit: 10/8/21

# Pricing/ Payment Gateway

- Currently our idea is for it to be a pricing/ quotation page
- Moving forward, when we scale bigger, we would expect there to be a payment gateway

---

# Visuals

- Professional image
- Industrial application focused

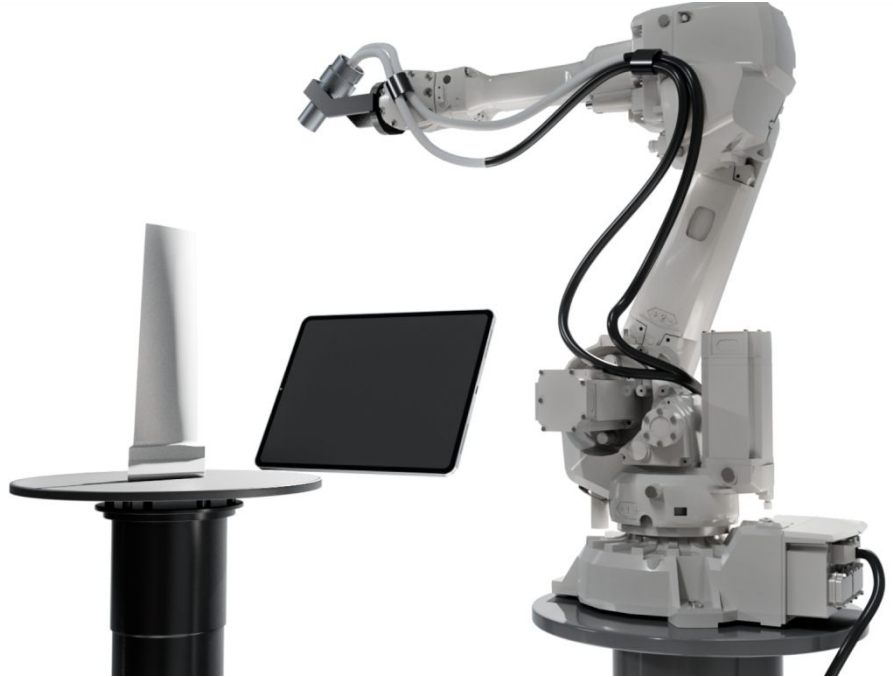

---

# Animations

- Animations react with web interactions

# The End
